

Peachy Keen

by Corey Yoder of *Coriander Quilts*

I have had a cobalt blue and coral colored fabric line in my head for several years. I pictured pretty flowers, sweet gingham, dainty calico prints, polka dots, gingham, and stripes all scattered across backgrounds in shades of blue, coral, and peach. I could just imagine adding in a beautiful green and one of my signature grays to round out the color palette. Now, I have brought this collection to life and I hope you love it as much as I do. I am so proud to present to you Peachy Keen! - Corey
